BUSINESS STATEMENTS

Purpose

To look for problem - solving solutions, innovations in the area of Safety, Health and Environment.

Vision

We aim to be the recognized expert in our industry and preferred technical support Company to do business with and to work for.

Mission

To provide value driven expertise and technical services to save lives, property and environment in the form of,

- **E**xcellence in design and engineering
- **E**nhancing code compliance and systems requirements
- **E**mpowering with knowledge and training

Core Values

Energy

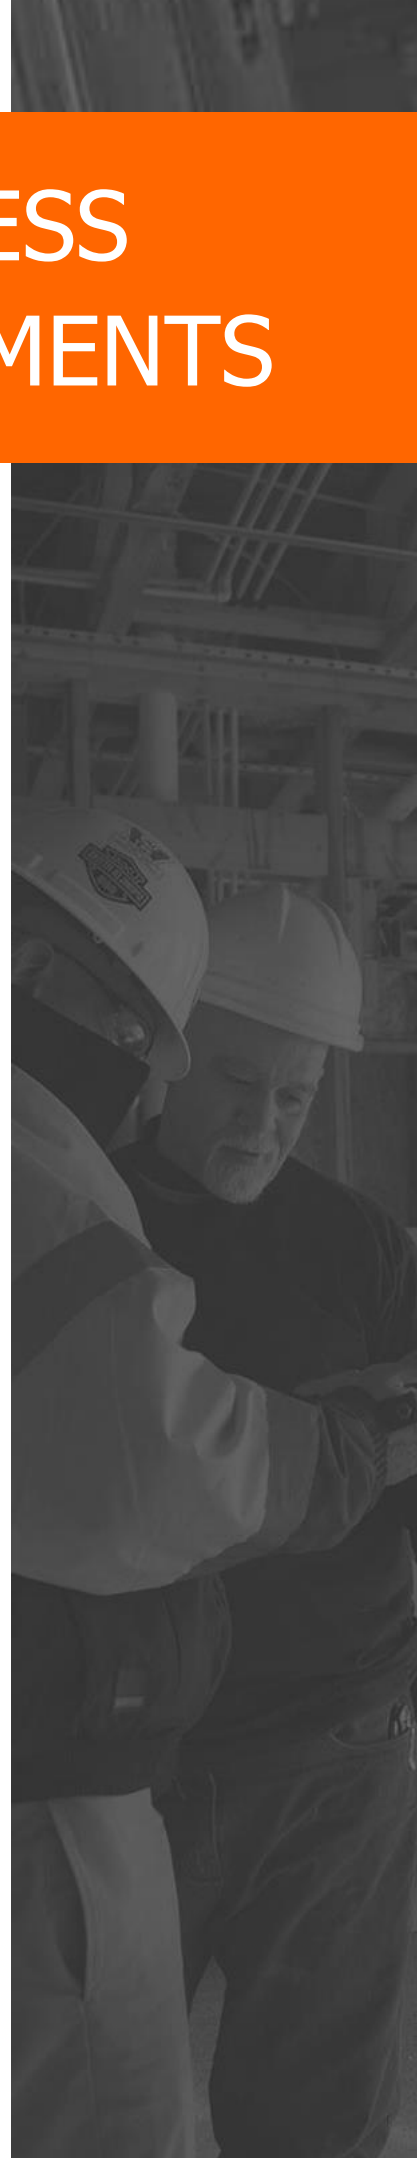

Capture opportunities and make things happen efficiently.

Excellence

Do things better than anyone else in industry.

Ethics

Never compromise on ethics standards for business gains.

SUITABLE FOR

Architects and Engineers

Contractors and Developers

Owners and AHJ

Our Services

Suitable for green field projects during
planning

Benefits during construction of the
projects

Also Designed for existing running
businesses

PROFILE OF **HEMANT V. KHADSE** Group CEO

SHORT BIO

Hemant is group CEO of East Corp group of companies diversified in Fire, Security and safety consulting. He is a qualified Fire & Life Safety Consultant with extensive engineering and business experience gained over 24 years, having worked on some of the largest and most complex projects within India. He has an unprecedented understanding and codes and standards which underscore his ability to execute the specialist services provided by the Group. He currently leads East Corp, EMI India Pvt Ltd and FLS Engineering consultants Pvt Ltd group companies.

RELATED ACCOMPLISHMENTS

- Handled Hotels, Manufacturing industries, High rise – Commercial and residential, School, Infrastructure, Heritage buildings, Warehouse projects in terms of fire & security consulting.
- Business Travel to various countries includes US, Singapore, Hong Kong, China, Srilanka, Bhutan, Nepal, Dubai, Bahrain, Bangkok, Taiwan, Congo and Bangladesh.

TRAINING & AWARENESS CENTRE

Training is the key for every organization for creating safety culture, enhancing the knowledge and building the confidence on safety systems.

We at East Corp Group conduct systematic and professional (customized and pre-set) training modules designed for individual to masses.

This covers from basics – short duration to technical hands-on 2 days module.

The trainings are in-house and onsite depending on customer's requirements, number of trainees and logistics issues.

The general subjects that we cover and conduct trainings for:

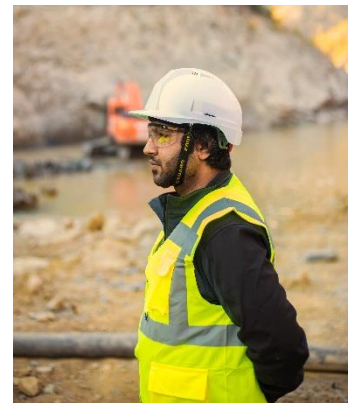

CHEMICAL SAFETY

1. Chemical Hazard Awareness
2. Chemical Handling, Identification & spill containment
3. Laboratory Safety
4. H₂S/So₂ Awareness & Escape
5. Nitrogen Awareness
6. Radiation Awareness
7. Process Safety Orientation

APPLICATION ENGINEERING

1. Understanding the code compliance of Seismic application in Fire Protection systems
2. Understanding Seismic supports for fire protection systems
3. Hydraulic Calculations for Fire designers
4. MEPF Piping and equipment supports – Guidelines and best practices

GENERAL SAFETY TRAINING & AWARENESS

1. Fire Safety Training, Basic Firefighting, Fire Extinguishers - Awareness
2. Emergency Response
3. Housekeeping at Work
4. Basic First Aid, CPR, AED
5. Electrical Safety
6. Fatigue and Tiredness
7. Ergonomic Awareness
8. Behavior based safety – Awareness
9. Kitchen Safety – Food hygiene care and kitchen care
10. Driving safety and road safety awareness
11. Healthcare Fire Protection - Do we have it right?

SAFETY MANAGEMENT

1. Industry safety Management – Plan and development
2. Office Safety Management – Plan and development
3. Design and planning successful Firedrill
4. Supervising Safety
5. Best maintenance practices for fire systems and appliances

CONSTRUCTION SAFETY

1. Construction Safety
2. Fundamentals of Passive Fire Protection and applications
3. NFPA 101 Life safety code for Architects
4. Material Handling
5. Work at Height
6. Scaffold and excavation – Awareness
7. Falls, Slips & trips
8. Welding & Gas cutting Safety
9. Crane and Forklift safety
10. Project management for essential & system Integrator

OCCUPATIONAL SAFETY AWARENESS

1. ISO 45001 - Awareness
2. HSE Induction Training
3. HSE Orientation
4. Job Safety Analysis, Job Hazard Analysis
5. Incident & Accident Investigation (IAI)
6. Hazard Identification & Risk Assessment (HIRA)
7. EHS Legislation
8. Work Permits
9. Confined Space Entry, Rescue & SCBA
10. Personal Protective Equipment (PPE)
11. Respiratory Protection & breathing Apparatus
12. Noise at work – awareness
13. Isolation & Lock Out Tag Out (LOTO)
14. Process Safety Orientation
15. Blood Pathogen
16. Biohazard handling and waste Management
17. Heat Stress
18. Working in Poor Illumination
19. Warehouse Safety

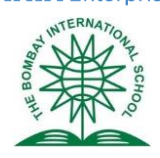

FIRE SAFETY MANAGEMENT

1. Fundamental of Fire & Life Safety
2. Design and Planning successful Mock drill
3. Introduction to Fire Safety
4. Electrical Safety
5. Introduction to Fire Seismic Supports
